A quoted clever line like hope
I'll take the final words you wrote
To make them feel like bliss...
As always as I'll take the praise
I have a way with making things
Scripted like a song that makes you sting...

I need you here with me
So here's a heart to heart
On the back of postcards in from California
Remember when I said
Just stay, you're what you are
I know you hate the feeling when I walk away
When I'm without you I'm not the man that I knew I can
be
Because your not here with me

You can break my heart open
And ruin my epic ending
You hand like a noose around my neck...
But the next time you say
Promise me I'll make
One for myself to always stay (what I am...)

I need you here with me
So here's a heart to heart
On the back of postcards in from California
When I'm without you I'm not the man that I knew I can
be
Because your not here with me
I need you here with me
So here's a heart to heart
On the back of postcards in from California
When I'm without you I'm not the man that I knew I can
be
Remember when I said
Just stay, you're what you are
I know you hate the feeling when I walk away
When I'm without you I'm not the man that I knew I can
be
Because your not here with me
