You don't care about impossible  
Something I wish I could learn from you  
Write me down is the best idea you had  
Watch the fire fly 'cause I struck the match tonight

When you held me tight through this moment in time  
Pull these words off from my lips  
Keep them safe, just remember that we wrote...

There's a hope  
There's a light  
And I see it in your eyes  
And I hope you can see it in mine  
(There's a secret held inside)  
There's a chance  
And a time  
That the sky could fall tonight  
And I will be here at your side

Watch as the ground turns as dark as the  
Shadows cast on them and I disappear...  
How are you perfect when I'm just wasting time  
Just to coast inside and I'm waiting for the fall...

When you held me tight with a sense in your eyes  
When I'm with you things are right  
I'll keep you safe, just remember that we wrote...

There's a hope  
There's a light

And I see it in your eyes  
And I hope you can see it in mine  
(And everything could fall tonight)  
There's a chance  
And a time  
That the sky could fall tonight  
And I will be here at your side

Stars are never out of reach for you (just dream, just  
dream...)  
Hold out your hand and touch the sky

Just dream (Just dream...)  
Just dream  
Tonight

There's a hope  
There's a light  
And I see it in your eyes  
And I hope you can see it in mine  
(And everything could fall tonight)  
There's a chance  
And a time  
That the sky could fall tonight  
And I will be here at your side  
If the sky should fall tonight  
I will be here at your side  
If you fall tonight I'm here...
