Chorus

No one is dragging me down

Don't drop me down

Dragging me down

(repeats)

Devil or an angel

Higher than the Eiffel

Got me in a trifle

Shot me with her rifle;

Saint or a sinner

Proper money spinner

Colder than the winter

Making me shiver

Its like roses

Perfect poses

Swarming like locusts

Try to stay focus

Perfect strangers

Two lone rangers

Got me saying prayers

Colder town surveyors

Stranger than strange way

We're living in strange days

They say that crime dont pay and

I did it my way

Chorus

Devil or an angel

Higher than the Eiffel

Got me in a trifle

Shot me with her rifle

(repeats)
