I'm looking through the window
Observing rainy day
And my face looks so tearful just for today
Cause I'm with you
I'll forever I'll forever praise you to
I'm through I'll get cause I praise you

Fly baby fly to the sky
My butterfly
Fly baby fly so high together
Fly baby fly to the sky
My butterfly
Fly baby fly so high

We're gonna change the weather
We're gonna change the day
When we'll get down together
To find heaver place
And I'm with you
I'll forever I'll forever praise you to
I'm through I'll get cause I praise you
