"More Than Brightness"

Visit "[More Than Brightness](#)" on MotoLyrics.com

I am very glad cause today I have seen
morning star my only one brightness
yesterday she was so far
but this morning she changed the height
and caught with bad thoughts
but it is hard to resolve
is getting clear and I hope
you will be by me
near is future

it's more than brightness with you
I feel too
I hope your answer is true
so prove it too

does it really matter
where I'll go where I'll see where I'll find
my only one brightness
mornings near so while I'll find
it is so comfus for a time just for moment
but it is hard to resolve
is getting clear and I hope
you will be by me
near is future

it's more than brightness with you
I feel too
I hope your answer is true
so prove it too
