Silent night brightest lights
Wake me up and open clearly site
It is cold I am stone
Through the open window you hear my song
I won't lie to myself
I am happy and I'm feeling well
Honey mine, go to hell
Let me be alone just like in cell

Now you won't now you don't
Now you sleep now you need
Now you won't now you don't
Now you sleep now you need

Take me take me as you can
Hold me hold me till the end
Take me take me as you can
Hold me hold me till the end
If you take me you will hold me till the end
If you take me you will hold me till the end...

It's a date I am late
No delicious supper in my plate
Make me heist work a lot
Your decision never be so hard
You were right- I'm a clear
I can solve the problems which I make
Honey mine, go to hell
Let me be alone just like in cell

Now you won't now you don't
Now you sleep now you need
Now you won't now you don't
Now you sleep now you need

Take me take me as you can
Hold me hold me till the end
Take me take me as you can
Hold me hold me till the end
If you take me you will hold me till the end
If you take me you will hold me till the end...

But it's happening just,
When you know all the badness...
So it means I should go
Through the silent night alone... (x2)

Take me take me as you can
Hold me hold me till the end
Take me take me as you can
Hold me hold me till the end
If you take me you will hold me till the end
If you take me you will hold me till the end (x2)
