Never spoke about far away
Places of darkness and faded dreams
So heres to everything and everyone
That help was of no use when one succumbs
Here comes the silence one likes to speak
The heartache that triumphs when ones too weak
Its such a shame
This worlds only to blame

Why cant they understand
Its not as easy its not so easy
Being..faraway_____

Well Ill hold these memories tight
Within dreams all night
NO it doesnt seem right
These long dreaded days without a love
By my side
A lonely side
Far away
I miss u darling always!!!

Hands down
This feeling is the best and worst to come around
So confusing
A complex composure to try and jot down

Never speak about these far places
Hard to think about when theres no escaping
