(Fontana/White)
Can you take the pain away?
Could you dry my eyes?
(Take away the lies)
Watch my life drift away
You can't finalize
(Fail to compromise)
All the life you've given me
You can't take away
Victim of an empty mind
With all my fear, with blood and tears
Alone I have to pay!!
I can tell what you feel inside
I can see what you try to hide
No love for life that you create
Born and raised and left to hate
In my mind there's never anyone to blame
You are right but you are always causing
All the pain
Beyond insanity
That's where you've got to be
Sifting through the selfish lie that
Call life
Can't close my eyes today
All the torment in my head
(Sin is all you said)
I try to figure out
Why my feelings are so dead
(Hatred is inbred)
To live my life to hate the world
Is such hypocrisy
In my mind it's only me
With all the love and all the hate I try
To break free
Try to break free!!
Can you take the pain away?
My life still left to find
(Searching all to find)
All th hell you've put me through
The confusion in my mind
(Confusion makes me blind)

A taste of sin a taste of sorrow
Life taken away
Empty house of empty lies
Without my fear I disappear alone you
Have to pay
Alone you have to pay!!
