Say lovely lady, can you help a gentleman safely cross
the street?

Escort him home at night, treat him to dinner by
romantic candlelight

Emancipation reigns supreme
She wears the trousers, skirts are rarely seen
Emancipation reigns supreme
It's just a matter of time for men to become extinct
finally

?Say, what's for dinner honey??
No, he will never say those words again
Be quiet when she gets home
In this feminine system you'd better leave her alone

Emancipation reigns supreme
She wears the trousers, skirts are rarely seen
Emancipation reigns supreme
It's just a matter of time for men to become extinct
finally

Men extinct finally, gone

She wears the trousers, Kate Bush for president
