Can you tell that I've been hurt so

Can you tell I wanna lay low

Can you tell that I'm a flower

Waiting for a sun shower

Can you tell that love denied me

I need someone to revive me

If you give me a reason
I'll be with you through the seasons

[pre-chorus]

And we'll she'd of our skin like trees do

With leaves we'll glide together down on winter breeze
And rest in the earth intertwined at the roots

Until we have grown into one me and you

[chorus]

And we can be new (repeat 4x)

Can you tell me a story

That ends with morning glory

Can you tell I would believe you
If I could remember how to

Come back there's nothing here to fear love
Can you tell the girl I once was

If you give me a reason

I'll be with you through the seasons

[pre-chorus]

[chorus]

Want to begin, want to begin to grow our new future
love

Where the ground is still fertile, full of hope and life
Never again, never again will pain and lies do you in

Let's bury them beside us, so they can remind us of
when we

[pre-chorus]

[chorus]
