You say you want it all
To dip your fingers in the green
You say you want it all
The sun, the moon and what's in between
You say you want it all
You want the world to know your face
Baby haven't you heard
Every star can be replaced

Ride the product line
Hop in your box but don't protest
You just been signed
To the three ring bull*!?! business
It's a players ball
And the pimps come in black and white
And that's about all as I turn in this song to
My pimp tonight

Chorus
Oh, you
Ask me how
You can win
How many walls you gon' have to break down
To get in
Oh, oh, oh
As you're steady pushin through
Oh, oh, oh
Don't let it be breakin' you

Same who have it all
Are one big shiny lie
They're selling us a story they know that
We're gonna buy
But don't you let them fool you baby
They can't sleep at night
Their mirror shows a reflection of a person
That they don't like

Ride the product line
Hop in your box but don't protest
You just been signed

To the three ring bull!?!#* business
Check you're brain at the door
Then hang it up with you're orginality

I can't say no more
'cause if I do then they won't let you hear from me

Chorus

There ain't no real love up in here
There ain't no
There ain't no real love up in here
There ain't no
If you're lookin for real love up in here
If you're lookin for
Gotta bring your own real love up in here
Bring your own

Chorus
