Once I was happy
Once I was alive
With the spirit of life's beauty
In the limit of the sky
Watching lives get taken
Made something in me die
Cause every day is a struggle for my spirit to survive
Somehow I lost the will to be
'Cause my soul simply crept outside of me

Somebody tell me where to go
Searchin' for my soul
Thought it was stayin' but now I don't
Searchin' for my soul
It left an empty space you know
Searchin' for my soul
If you should see it send it home

I tried to be strong but my strength is skin deep
If happiness is comin' I hope I have the vision to see
I'm so heavy-hearted
I've got billy's blues
Lately I can't even bring myself to watch the news

Oh I feel the weight of all the world
Is resting on the shoulders of this girl

Chorus

Every time one of us goes down
Like I'm looking at my own blood on the ground
Seems like everybody's lost their minds
And I just might be the next one in line

Chorus

Searchin' for my soul
Searchin' for, searchin' for, searchin' for my soul
Repeat
