I'm torn away
but she said she wait when i return
from half a world away
her heart is red but she sees grey
and i want this maybe more than you
but i know what time can do
it will rip us apart and break us in two
make me realize i can't be with you

why does this always happen to me
summer love all this will be
and i want this maybe more than you
but i know what time can do

i see you from the dark
i see you as my perfect worth it
i'm seeing deep blue and feel it too
this is my short-lived utopia
why does this always happen to me
summer love all this will be
and i want this maybe more than you
but i know what time can do
and i feel deep blue
i always knew
this was to good to be true
and i don't want to feel without feeling you

why does this always happen to me
summer love all this will be
and i want this maybe more than you
but i know what time can do
i feel deep blue
i always knew
this was to good to be true
and i don't want to feel without feeling you
