I can hear you whisper you're calling my name calling  
my name  
what are you saying what are you saying  
come on don't let this echo away  
come on i can hear you  
are you behind me  
are you running my way come on come on  
i can feel it i can feel it it's like it's inside of me  
but you're calling my name it's calling my name  
it's just whispering away  
it's like these drops of rain come on i can hear you i  
can hear you  
but can you hear me too  
can we hear each other  
it just echoes away echoes away  
come on grab my hand it's like i'm pulling this out of  
my veins  
it's like i need you just to just rise it up  
but i can feel you  
you can rip my heart out  
but you'll never feel my pain  
never feel my pain  
yeah i can hear you i can hear you  
but you got nothing to say  
what are you saying come on come on  
i just can hear you echoing away echoing away  
but you can't feel my pain  
you're feeling nothing  
it's feeling nothing today  
and all these thoughts inside my head it's like it's  
echo away  
but i see this dream  
so come on come on  
take my hand  
run with me  
slow down no go faster go faster no slow down  
it's like come on do you remember the time  
it's late at night

we're walking through the sky  
we're walking through the beautiful sky  
i can feel you inside of me

but it's going my way it's going my way  
i can feel you inside  
and it's going your way it's going my way it's going  
our way  
it's going on back and forth back and forth  
but we're going today we're going today  
we're going today

i got all these voices inside my head  
they're screaming every which way it's screaming out  
loud it's screaming out loud  
as they whisper away  
i wonder if this degraded world  
is gonna wash my body away  
but i just have tears to count  
going away now if i wonder if i go if we're going  
together  
it's just gonna be my way it's gonna be my way  
i got a job to do i can hear you whispering my name  
whispering my name  
but you got nothing to say to me yet i can feel you deep  
down inside  
nothing's gonna stop me from what i gotta do it's  
what i gotta do gotta do gotta do gotta do  
but you know come on  
it's like we walk down these side walks and swim  
these rivers and streams  
we're going every which way  
we're walking the sky it's just beautiful tonight  
with nowhere to go  
nowhere to go  
it's just every which way  
with nothing to do but follow your heart
