It ain't us
And them bodies ain't ours

I'm just watching your chest trying to breathe again.

It's shame boy they're taking your name and it's out of
my hands
Watch the door

Lock it too
I'm watching you

Oh it's just the start, don't you dare doubt it too
I don't think I have your fever

I don't ever want a seat right beside your throne

Wait until you see it

It's outta my hands

We can drag you out here backwards

It aint hard to put your family inside a hole

Just wait you wont believe it

It's outta my hands
