Wow, I want to be singing, my life is sure feeling great!  
Cause I learned something new, made a friend or two,  
and  
That is something to celebrate!  
See my sparkle, my spirit, my own kind of smile.  
Inside I feel it, and I want to smile,  
Hey, hey, hey take a good look at me, I'm glad to be an  
American Girl  
Look how much I love living, at this moment in time.  
I can hope, I can care, I can shout, I can share, and  
So many other choices are mine.  
You know, because we're all different, Imagine what it  
would be  
If we each took a dream, went to work as a team,  
To make a future full of promise.  
I like your sparkle, your spirit, your own special style.  
Inside you, you feel it, and you want to smile,  
Hey, hey, hey I think you'll agree, It's great to be an  
American Girl!  
As time goes by, I know things will be changing.  
I wonder what I will see?  
I'll make my way, say what I have to say,  
Trying everyday to be the best I can be!  
S- is Smart cause you excel,  
T- the Truth you always tell,  
Y- the question You ask,  
L- is cause you make me Laugh,  
E- is for the Extra mile,  
Put all together, girl, I like your style!  
I like your style!  
There's a kind of world where I wanna live,  
And ther's lots of good inside of me that I want to give,  
I want to fill it up with friendship, hope, and harmony-  
I'm glad to be an American girl.  
Cause it's our sparkle, our spirit, our own kind of style  
Inside us we feel it, and we want to smile  
Hey, hey, hey it's so easy to see, it's great to be an  
American girl!
