Well the paper read
What the people need
Can't distort the truth to fit your needs
How do you sleep at night
Can you wrong a right
Self-destruction, empty-hearted blues
Now what can I do, yeah
I believe
It's just a matter of time
Till we fall apart
Fall down on our face
Condemned to life, imprisoned by
One false move, another one dies
Now I hate the fucking world
I hate the world
Bullshit policies
For bullshit politics
Can't contort the truth to fit your needs
How do you sleep at night
Can you wrong a right
Self-destruction, empty-hearted blues
Now what can I do, yeah
I believe
It's just a matter of time
Till we fall apart
Fall down on our face
Condemned to life, imprisoned by
One false move, another one dies
Now I hate the fucking world
(Repeat)
I hate the world, and I hate you too
