By the sound of your voice
I can tell that you have no choice
Falling away
Wish there was something I'd say
To take it all back

[chorus:]
You shine on what ever you do
The life from the last shooting stars
Fall down where ever you are
Only a proof
It's my soul to lose
This time

Only a proof
It's my soul to lose

No don't make a sound
Black shit of rain coming down
Washing away
Leave me with nothing to say
To take it all back

[chorus]

Only a proof
It's my soul to lose
This time

[chorus x2]

Only a proof
It's my soul to lose
This time

Only a proof
It's my soul to lose
This time
