

American Heartbreak "Nobody Likes Me"

Sittin' in some cafe
Bored with life and coffee
Caffeine stains my teeth
And the loneliness kills my soul
Vacant faces casting blacker shadows
Time escaping for losers like me
Everyday with my head in the sand
So you don't see me

First you say you do
Then you say you don't
Care nothin' for me

You've been through this all
100 times with me, yeah

Nobody likes me
It's plain to see as the nose on your face
Nobody likes me, today

I can do better than you
You can do better than me
I can do better than that
You can do better than me

(Repeat all)
