I'll do everything,  
But you're not that way,  
I'm lost around you,  
And you'll do everything,  
With the same old lies,  
But I can't even try.

Yeah you get me high,  
I'm feelin' so low,  
How far will you let me go?  
Yeah you get me high,  
I'm feelin' so low,  
I'm knocked down by the Vertigo.

Nothin' means a thing,  
When you're cold and gray,  
I'll fall behind you,  
I'll make the same mistakes,  
With the same old lies,  
When I can't even fly.

Yeah you get me high,  
I'm feelin' so low,  
How far will you let me go?  
Yeah you get me high,  
I'm feelin' so low,  
I'm knocked down by the Vertigo.

Yeah you get me high,  
I'm feelin' so low,  
How far will you let me go?  
Yeah you get me high,  
I'm feelin' so low,  
I'm knocked down by the Vertigo.

Yeah you get me high,  
I'm feelin' so low,  
How far will you let me go?  
Yeah you get me high.
