I'll do everything  
But your not that way  
Im lost around you  
And you'll do every thing  
With the same old lies  
And i cant even try

Yeah you get me high  
I'm feeling so low  
How far will you let me go  
Yeah you get me high  
Im feeling so low  
Knocked down by the Vertigo

Nothing means a thing  
When your cold and grey  
I'll fall behind you  
I'll make the same mistakes  
With the same old lies  
When i cant even fly

Yeah you get me high  
I'm feeling so low  
How far will you let me go  
Yeah you get me high  
I'm feeling so low  
Knocked down by the vertigo

Yeah you get me high  
I'm feeling so low  
How far will you let me go  
Yeah you get me high  
I'm feeling so low  
Knocked down by the vertigo

Yeah you get me high  
I'm feeling so low  
How far will you let me go  
Yeah you get me high
