You call my name, ooh so sweet
To make your kiss incomplete
When your mood is clear you quickly change your ways
Then you say I'm untrue
What am I supposed to do
Be a fool who sits alone waiting for you

If you really love me, won't you tell me
(If you really love me)
Ooh I won't have to be playin' around

I see the light of your smile

Calling me all the while
So I'm taking out this time to say

If you really love me, won't you tell me
If you really love me, won't you tell me
So I won't have to be playin' around
