Grew up in America in a little white house
Drove my parents crazy - so they threw me out
I thought I was a decent child
But I guess I got a little too wild

I've been through good times
I've been through bad times
But wouldn't change nothing - no

I wanna hear some rock n' roll
I'm an American man
I wanna party all nite
Till the crows come home
I'm an American man
I wanna find someone to love
I'm an American man
Gonna be somebody you can be proud of
I'm an American man

Got an old blue chevy and I fixed it up
Went down to the city and got ripped off
Gonna save my money
Gonna get me a job
Find a woman
Then get back on the top
