We're back motherfucker, we will burn your house
down.
Your cesspool of existence is worthless of my crown
(bow
down) if you bring the talk I will bring the pain.no way
out this game is all the fucking same.No way out.
So many times where this has come and gone, reading
all
this bullshit no one has a backbone.Where is your
fucking
nerve,
No one has has a back bone,say it to my face, say it to
my fucking face.
Your a fucking coward
Let me tell you this listen up I'm just a simple man for
the world to bare it weight on me,fight through
adversity.
All hope is lost in society, all hope is gone fight
through adversity. Your a fucking coward your a
fucking
liar.
