"One Free Kill"

There will be no rest until your life is raped away for
good.
Your demented seeds won't grow.. only dead water will
flow
With the blood of your kind.
Chew you up, spit you out, purge you from my life..
A curse from the womb, I should have killed you from
the
start.
Gameover motherfucker. This is where you end. Rest in
piss.
Beg for life.. no excuse to let you live..45 automatic..
brains all over my shit..
This is my one free kill. Rest in piss.
