

## American Me "Submissioner"

Visit "[Submissioner](#)" on MotoLyrics.com

Your in my control, forced and submitted. Had you from the  
back you lost my respect this will never be forgiven.  
Submissioner forced and submitted you never would of  
thought of this I'm coming from the front and if you  
practice way you preach you'll know that fire can't be  
beat in the end. Not in the end. Your past life never  
showed you about the hell that will control you just face  
the fact that strength is what you lack when your forced  
into submission. Forced into submission.  
This is insanity a world of pain motherfucker I just  
might let you breathe again. You lay to waste in the  
wake  
of my path I watch your life slip away as you crumble to  
dust.  
Submissioner forced and submitted  
I just might let you breathe again.
