Sunrise I see in your eyes  
Destroy the future now  
Of those whose motivation is just fear  
and superstition

Huddled masses rise up  
Rebel hearts stand tall  
Because love's the only answer  
For anything you've ever wondered  
That is, love and logic  
We want love and logic  
We need love and logic

Daughters of the revolution  
Still waiting for resolution  
Come sons of everyman  
Still waiting for their promised land

Huddled masses rise up  
Rebel hearts stand tall  
Because love's the only answer  
To anything you've ever wondered  
That is, love and logic  
We want love and logic  
We need love and logic

Sunrise I see in your eyes  
Destroy their future before it kills us  
Destroy their future now
