Love, lust, that first kiss,
These are the things no one wants to miss,
Time, lies, fast us still,
But tell me if it's real!
Cause I know a place where we can go to,
If really now I get the best,
Promise before the night is over,
You gonna live like it's your last!

[Chorus]

Let's go to London town, Paris...
Tell me where you want to go!
Let me take you to London town and Paris..., Tokyo and
so

...

Baby let's go, baby let's go outside your...
Baby let's go, get outside your body, body!
Just get outside your body!
Get outside your body!
Get outside your body!
Get outside your body!

Hate, hate, jealousy, hidden mystic culture,
Discontent, race and ...
But I know a place where we can go to,
If really now I get the best,
Promise before the night is over,
You gonna live like it's your last!

I'm talking about...

[Chorus]

Let's go to London town, Paris...
Tell me where you want to go!
Let me take you to London town and Paris..., Tokyo and
so

...

Baby let's go, baby let's go outside your...
Baby let's go, get outside your body, body!
Just get outside your body!
Get outside your body!
Get outside your body!

Get outside your body!

Everything is beautiful,
Outside your body!
Anywhere you wanna go,
You only have until infinity!

[Chorus]

Let's go to London town, Paris...
Tell me where you want to go!
Let me take you to London town and Paris..., Tokyo and
so

...

Baby let's go, baby let's go outside your...
Baby let's go, get outside your body, body!
Just get outside your body!
Get outside your body!
Get outside your body!
Get outside your body!
