Want you to turn the lights off...me on

[Spoken:]

Hey...I know its been a minute...I'm ready

Want you to try to relax...close your eyes
Don't act like you're so surprised
Feel the silk against your skin
Let the games begin

Don't waste time come get me right now
Don't worry 'bout a thing it's 'bout to go down
Don't be scared nobody's around
We've waited so long
It's about to go down

Cause your so
Sexual
That's what you are
Sensual
Ooh you're looking so
Beautiful
It's about to go down
Me and you

Now we're about to take off
It's on
Pressures growing
Going strong
Hold me close and don't let go
Inhibitions out the door
One...judge...no
Tell me what you dream of

I'm everything you thought I was

Don't waste time come get me right now
Don't worry 'bout a thing it's 'bout to go down
Don't be scared nobody's around
We've waited so long
It's about to go down

Cause your so
Sexual
Ooh...That's what you are
Sensual
Can you hear the sound?
Beautiful
It's about to go down
Me and you

Don't waste time come get me right now
Don't worry 'bout a thing it's 'bout to go down
Don't be scared nobody's around
We've waited so long
It's about to go down

Cause your so
Sexual
Ooh babe...That's what you are
Sensual
Ooh you're looking so
Beautiful
It's about to go down
Me and you

Me and you [repeat]
Ooh ooh whoa

So beautiful
That's what you are
Sexual
That's what you are
Sensual
And you're looking so
Beautiful
It's about to go down
Me and you

You're so
