I bet she doesn't kiss you, babe  
Like I used to kiss you, babe  
I know she doesn't do it like me  
Don't act like you don't miss this  
Miss the taste of my lipstick  
When it's written all over your face

'Cause it's not my fault  
That you, just now realize  
That you didn't need her  
And the grass ain't always greener  
So don't feel away  
There's nothing to say  
Just reminisce and think back back  
To how we use to be  
When you used to be with me

Now that it's over  
And you need a shoulder  
Who's gonna love you like I did  
Who's gonna love you right?  
How you're mad you ain't with me  
Do you hate it you miss me?  
Who's gonna love you like I did  
Who's gonna love you right?

You know ain't doesn't feel the same  
You look at her and see my face  
And now you don't know what you gon' do  
It's sad you (?)  
If I wasn't laughing  
Then maybe I'd feel sorry for you

But it's not my fault  
That you, just now realize  
That you didn't need her  
And the grass ain't always greener  
So don't feel away  
There's nothing to say  
Just reminisce and think back back  
To how we use to be  
When you used to be with me

Now that it's over  
And you need a shoulder  
Who's gonna love you like I did  
Who's gonna love you right?  
How you're mad you ain't with me  
Do you hate it you miss me?  
Who's gonna love you like I did  
Who's gonna love you right?

Then I may be the first one to say  
I'm sorry that things ain't working out  
With your girl  
But you shoulda known that karma  
Would come back around  
It's the way of the world  
All the things you put me through  
I'm so glad I'm over you  
Now you wanna hope it's not too late  
So (?)

Now that it's over  
And you need a shoulder  
Who's gonna love you like I did  
Who's gonna love you right?  
How you're mad you ain't with me  
Do you hate it you miss me?  
Who's gonna love you like I did  
Who's gonna love you right?
