[Verse 1]

There's fear in the air cause the secret is out,
I see a million veiled faces going down devil's route,
All following the crowd, it's a sign of the apocalypse,
Hiding in the cracks can no longer stay anonymous,
Say what you want, but there's a price to pay,
For every word you say, and that starts today,
That's for you fifty, do you think I'm joking around
If "This Is How We Do" then lay me the **** out,
Not a blink in my eye, cause you a fake anyway,
Should I be scared because you took out "Many Men"
Challenge to all, I'm a put you test,
If raps not a joke, then put a bullet through my head,

[Chorus X2]

Like this, like this,
Like that, like that,
I'm a take what you took,
I'm a give it right back,
Hate me, but I won't stop,
Kids got slits on his wrists from the pain you caused,
[Verse 2]

Back in 2006, you left me for dead,
But you didn't get the job done, try again,
Voices swarming in, made me split personality,
Now your facing someone who is bigger then reality,
Created a monster from the A to the N,
Do you think I'm human, NO, I'm Ameriken,
Sirens ring as I ravage the industry,
Come into your house and pull you out "let me be,"
(SCREAM)

And there's no stopping this thing I've become,
Sucks all your life you don't know what it does,
I try to face the past, but it just won't go,
Constantly reminded of all that went wrong,
But there's something inside that tells me there is a
hope,
An act that was done that can save my soul,
Help me God, this ain't the person that I want to be,
She took everything made me something thought I'd
never be,

[Chorus X2]
