I want you to know, that I love you
Your my best friend and it's hard to
Understand this, but I'll try my best not
To break your heart when I'm saying goodbye

And we'll be waiting for eachother
Just like we wait for the summer
But I cant, let you go
No I wont, no I wontt

I know this is hard
And you wont understand
Lets go for a walk
I'll hold on to your hand
I've been thinking a lot
About everything
And this song is all I've got
To keep you here with me

Just so you know
I've been thinking of you
And just so you know

Just so you know
I've been thinking of youim thinking of you
I know what to say
But I never thought
This would happen so suddenly
And I want to say goodbye
But I don't wanna make you wait
Tell me how you feel inside
Before it's too late girl
And just so you know

I want everything to get better
I know I said "ill love you forever"
But baby this just doenst feel the same
And I'm not saying you're the one to blame
But I just need to think this through, for a while
I wanna see if you'll miss this as much as I will
And I don't want this to be the end
No it cant, no it can't

And then we'll get in my car
And I'll explain while I'll drive
Until we don't know where we are
If that's how long it takes that's fine
I want to clear this up with you
I wanna work all of this out
Well talk about all of the things
We've been afraid to talk about

Just so you know
I've been thinking of you
And just so you know

I'm thinking of you
I know what to say
But I never thought
This would happen so suddenly
And I want to say goodbye
But I don't wanna make you wait
Tell me how you feel inside
Before it's too late girl

I know this is hard
And you won't understand
Let's go for a walk
I'll hold on to your hand
I've been thinking a lot
About everything
And this song is all I've got
To keep you here with me

I've been thinking of you
