I say "baby I love you"  
And then I walk out the door  
You said " I love you too"  
But you don't mean it anymore  
I rememeber when we used to  
Stay up late and you'd fall assleap  
And you'd wake up in my arms  
Underneath the sheets  
And we're so close that I can feel  
The beating of our hearts  
I hold you and I look over  
Your shoulder at the stars  
I remember every word you said and  
Baby you were right  
When you said there's no place better  
Than being in your arms tonight

And this could be my last chance to prove  
That we're meant for each other  
And I'm ready for you so..  
Baby make your move

When you're in my arms  
The skies are always so blue  
And it's always eleven eleven  
So close your eyes  
And don't you say a single word,  
no...no..no

Baby I love you so  
Stay with me don't ever go  
What can I say to her  
I want you I want you you you  
I know youve been upset  
But baby it's not over yet  
What can I say to her  
I want you I want you you you

I look into your eyes  
And I apologize, to you  
I'm sorry for the way I've been  
And I know that you are too

But you don't have to say a word

Don't worry about that  
I understand the way you feel  
At least a little bit  
I think about how you,  
Made me who I am today  
And believe me girl I  
Wouldn't have it any other way  
Thank you for all the things you do  
I had a really good time tonight  
I love you, I'm so glad to  
Have had you in my life

And this could be my last chance to prove  
That we're meant for each other  
And I'm ready for you so..  
Baby make your move

When you're in my arms  
The skies are always so blue  
And it's always eleven eleven  
So close your eyes  
And don't you say a single word,  
no...no..no so

Baby I love you so  
Stay with me don't ever go  
What can I say to her  
I want you I want you you you  
I know you've been upset  
But baby it's not over yet  
What can I say to her  
I want you I want you you you

When you're in my arms  
The skies are always so blue  
And it's always eleven eleven  
So close your eyes  
And don't you say a single word,  
no...no..no

No.... no.... no

It's always eleven eleven...

And don't you say a single word,  
no...no..no
