I look across the room
and i see this girl that i used to know
that girl i used call and say
"i love you, and i always will"
And ive been so alone and
im sick of looking for an answer
to all of my problems
i think its time to hit the dance floor
and then i met a girl
and i fell for her

lets dance all night until the music stops and when it
does
we'll bring it back to life so its the mu sic and the two of
us
so just touch your, touch your lips to mine and our
hearts will beat so fast
that we slow down, slown down time lets make this last

i forgot who good it feels
to meet a girl and fall in love so soon
and it feels like you've been in love with her forever
and that girl, is you
you look so good tonight
and i just dont know what to say
we look into eachother's eyes
and the music starts to play
so lets make this night
last forever

lets dance all night until the music stops and when it
does
we'll bring it back to life so its just a beat and the two of
us
so just touch your, touch your lips to mine and our
hearts will beat so fast
that we slow down, slown down time lets make this last

i love you and you know that
i love you and i know that
you love me and you know that
you i love you i sweari do

lets dance all night until the music stops and when it
does
we'll bring it back to life so its just a beat and the two of
us
so just touch your, touch your lips to mine and our
hearts will beat so fast
that we slow down, slow down time lets make this last
