Goodbye girl  
she smiles and then she walks away  
turns back around,  
and then our lips collide like clouds crash into planes  
baby we're up there  
we're in the sky tonight  
and when you kiss me  
my heart starts like an airplane and we fly

and why can't we get along like we used to  
when i used to sing you a song or two  
over the phone baby  
i want you to know if you stay or if you leave  
wherever you go i'll be right here going crazy  
and i love you, i do, i do  
let's make love, let's stay together  
let's make this last for ever, you  
you and me, me and you, forever

and what can i say  
i can't keep my eyes off you  
and yesterday is yesterday  
let's leave it there and never say  
a word about it  
cause our love is too thick  
to break anyways  
let's go back to those summer days

baby girl,  
you're the only thing that keeps me going  
your my waterfall  
and our love won't stop overflowing  
take my hand, i won't ever let you go  
she says i have never felt,  
never felt so, beautiful

and why can't we get along like we used to  
when i used to sing you a song or two  
over the phone baby  
i want you to know if you stay or if you leave  
wherever you go i'll be right here going crazy  
and i love you, i do, i do

lets make love, lets stay together  
lets make this last for ever, you  
you and me, me and you, forever

and what can i say  
i cant keep my eyes off you  
and yesterday is yesyterday  
lets leave it there and never say  
a word about it  
cause our love is too thick  
to break anyways  
lets go back to those summer days
