I dream of you
here, im better with
you in my eyes
right underneath, us
our shadows kiss
when the sun starts to rise

I see the world
stop, around us, so
we can take our time
I felt the wind
drop, beneath us
then, we began to fly

baby dont you worry now
im here so everythings alrite
just rest your eyes for a while
and i will bring your sweetest dreams to life
your all i ever wanted
and your exactly what i need
read the love note i slipped in your pocket
it says i love you, i swear i will never leave

remember that time
when you came home
late, and i was on your front lawn
waitng for you
with, some flowers i asked
are you in love?
you said that you
wenrt sure enough to decide
but you couldnt keep a straight face
you jumped in my arms
and our lips aligned
so perfectly

baby dont you worry now
im here so everythings alrite
just rest your eyes for a while
and i will bring your sweetest dreams to life
your all i ever wanted
and your exactly what i need

read the love note i slipped in your pocket
it says i love you, i swear i will never leave

I will, always, love you,
believe
