I thought you'd like to know  
this mess just isn't enough  
to change the way that i feel  
about you, and our love  
will never, fade...away  
and even when we fight  
until theres nothing left to say  
we know that it's alright  
cause at the end of the day  
its just you, and me  
me and you,  
thats all we need.

after you leave  
i might be lonely  
but its a lot easier to sleep  
when i got the smell of you  
on my pillow and in my sheets  
but i still miss you  
when your upset you say you'll hate me  
but it doesn't mean a thing  
because no matter what you say to me  
my phone will always ring  
and ring... your everything

your mine  
I'm yours  
and we don't need anything  
but a little more  
of this moment  
feels so right  
all we need is each other  
and a little bit of moonlight  
and i already know  
that your lonely without me  
and you already  
that i feel the same way

I'm sick of hearing people say  
that love never works  
and its just another game  
and when your the loser it hurts

but no, its not true,  
I've got proof...  
and no one can understand  
how we feel the way we feel  
they all say they've been in love  
but their wasn't real  
like you, you and me  
me and you, thats all we need

your mine  
I'm yours  
and we don't need anything  
but a little more  
of this moment  
feels so right  
all we need is each other  
and a little bit of moonlight

and i already know  
that your lonely without me  
and you already know  
that i feel the same way
