### "Final Piece"

I stand so tall now  
Illuminated  
Looking back on tired years, ill-fated  
Tendrils have friends and foe  
Lost dreams and glowing hopes  
Searching for my invisible goal

But now you fill my life  
The final piece  
To a puzzle that has always left me weak  
Now I'm complete  
In your embrace  
And there's nothing that could hold up in my faith

Something fell down inside  
Behind my dreams I'd hide  
Never clear to turn my face to the sun  
Where was my angel like  
The moon of my night  
Silver lining on my sunset clouds

But now you fill my life  
The final piece  
To a puzzle that has always left me weak  
Now I'm complete  
In your embrace  
And there's nothing that could hold up in my faith

Now my heart was not black it was grey  
The lucky are going to see blue skies someday  
Now my heart was not black it was grey  
The lucky in you will try and be alone someday

The moon shined before my eyes  
My blisters need to pain as I realise  
I always known you'd come  
Oh how I've waited so long  
Lead me to where I went let's belong

But now you fill my life

The final piece  
To a puzzle that has always left me weak  
Now I'm complete  
In your embrace  
And there's nothing that could hold up in my faith

You fill my life  
The final piece  
To a puzzle that has always left me weak  
Now I'm complete  
In your embrace  
And there's nothing that could hold up in my faith
