Through these slow days I wonder what I must learn
All I hear is empty space, no one sings in my place
I'm missing the music as it moved me through the floor
I don't have the beat any more, I can't feel it any more

[Chorus]

Please forgive me for I know not what I do
Not what I do to you
Forgive me for the hook I've sunk so deep into you
Deep into you
Just when the pain fades I go and twist it again
Twist it again
Only cause it feels so good I never want it to end

So I will wait now while my purpose waits for me
Oh, maybe I try too much
Maybe I don't try enough
I'm missing the music and the tunes that let me fly
I know they're somewhere inside
But they've so many places to hide

[Chorus]

Please forgive me for I know not what I do
Not what I do to you
Forgive me for the hook I've sunk so deep into you
Deep into you
Just when the pain fades I go and twist it again
Twist it again
Only cause it feels so good I never want it to end

Don't give in to sorrow
You're lucky you got what you got
There will always be tomorrow's crowds
To tell that you got a lot
If it takes some time to realise
Force the door to an open mind
If you can't fight something don't, don't try

[Chorus]

Please forgive me for I know not what I do
Not what I do to you
Forgive me for the hook I've sunk so deep into you

Deep into you
Just when the pain fades I go and twist it again
Twist it again
Only cause it feels so good I never want it to end
