It's hard to start knowing you have gone already  
I'm sorry daddy coz there will never be  
A chance for me to apologise for your agony  
And no words could define what you mean to me  
What you have gone through for your eldest son  
As father and mentor never been there when you want  
me  
Need me and all of that beautiful memories just you  
and me  
I could never replace my 25 wonderful years  
All of that good times we had on the field but tears  
Flow on daddy your not here to go on daddy  
It's my turn to take responsibility  
For sister V and brother C and my mother  
It wouldn't be the same oh father  
How different we are identical no matter  
Like father like son you're my creator

Chorus (\*Pot\* & \*Taj\*)

Father be with us  
Stay oh Father stay with us  
Stay

Repeat 2\*

Left over a mark of indelible compassion  
That was passed down from my father  
As I wonder why life so fair to others  
The day you left plays in my mind like a recorder  
Had to be for me to see  
It felt like you went away for a long journey  
Why did you bring me up in such fashion  
Probably to teach me a lesson

Let the truth be told why my heart feels so cold  
Without you to warm it up and for you to hold  
A lot of people came when they heard that you were  
gone  
To pay their respects and to show that you were known  
As a good man who took care of his own

But now I know you felt all alone  
I wish I can turn back time and show I care  
I love you my dear father thanks for being there

Chorus

\*LANDSLYDE\*

You will always be alive instead in my heart  
To tackle and handle life we'll never depart  
May you rest in peace coz you've suffered enough  
You're my teacher and my guru everything all out  
I look like you I will be the same  
Balakrishnan I will carry your name  
Your hard work just to find a bowl of rice  
Nothing compares to you there's no price  
This I promise I will take care tha family  
Your job is done now it's my turn to be  
The man of tha house you need no worry  
I love you father please stay with me  
God took you away it's for our good  
I know you're smiling now I know you would  
How different we are identical no matter  
Like father like son you're my creator

Chorus

Repeat 2 \*
