(CHEERS)

To the expert way
You killed my pride today.

(CHEERS)

To the way you
Ripped my heart into shreds.

(CHEERS)

To the way you build
Me up and then tear me down.

Truth is I don't wanna lie.
Truth is wanna see you die.

Ghosts of my past won't haunt me anymore,
Now that you're in hell with that stupid little whore,
Goin' on the town tonight looking real fine,
Gunna go drink till I'm out of my mind.

(CHEERS)

To me, to the poison
That's mixed into your wine.

(CHEERS)

I watch you drink
Then shut your eyes
I'm completely satisfied.

Truth is I don't wanna lie.
Truth is wanna see you die.

Ghosts of my past won't haunt me anymore,
Now that you're in hell with that stupid little whore,
Goin' on the town tonight looking real fine,
Gunna go drink till I'm out of my mind.

And I whisper,

Cheers to the ones we lost,
Cheers to the ones we gain.
Cheers to all the motherfuckers
Who caused all our pain.
