

Amoral "Mute"

Cheated and seized when in rapture
Observed tortured and sipped of when dead
To possess against will, be it words or distorted display
of behavior
Little did I fucking know

So they are out of control
And they are out for some more

Spasm cult
Tongue of feet cold
And their void's fulfilled through assertions
To explain the worthlessness in which they so noble
dwell

And now... my spit turning to rape scene

They'll strap me down
Exposing me to the shattered face of humanity
Through no efforts I'm now part of this profanity
