What if they controlled you
What if they erased your mind
I bet you one thing
You wouldn't know, you wouldn't know at all

Sometimes I feel
There's something on my mind wasting time
I really don't know
But I've gotta find the way

If it's a chance you want
Would you stop and think about somebody else
I really don't think so
I really don't think
I really don't think you would think about

What if they could see you
You're just a face amongst the crowd
Hiding around so you can't be found
You wouldn't know
What if they could love you
What if they had a chance
About a lonesome thing
You wouldn't know

What if they could love you
What if they had a chance
I bet you one thing
You wouldn't know, you wouldn't know

What if they could buy you
How much more to change your mind
And still

It's just rock'n'roll to me
It's just one of those things, one of those things

Babylon release the chain
..... the pain
