Chorus:

I wanna break you into my world
I wanna break you into my world
It doesn't have to be forever
Just till the feeling is over (x2)

You speak
It will help me
What I'm going through
Comfort make believe
Need to set you

Chorus

You call
The horizon lifting
.....
She'll be gazing and watching me
Try to see
Try telling me
It back to control
Girl I crave for your soul

???

Break you into my
Break you into my world
It doesn't have to be forever
Just till the feeling is over
It doesn't have to be forever
Just till the feeling is over
