"Loves Gone Wrong"

I dream of you
And what you dream of me
You take away
The memories of my mind
I know you girl
I've known you all the time
I think of you
And how you used to shine

I know you want to girl
Without me by your hand
I know that you don't know that
I don't want to understand
I dream of you
And what you used to be
I take you back

Chorus:
Seems to me that love is gone so
Gone so wrong, really gone so wrong
I've taken time
To wipe away my plans
My shoulders
Acting like a man
Gonna walk no more
My feet are made of clay
Can talk no more
I've nothing left to say

And now you want to girl
Without me by your hand
I know that you don't know that
I don't want to understand
I'm thinking girl
Of what you used to mean
I take you back

Chorus
