You know my life is so strange
I promise to take it easy on your
I write you if I wrote you a letter
Would you change
I don't think so
No, I really don't think so

Chorus:
It's just my personal feeling
Running through you
It's just my personal feeling

You don't realize what you do
When you're not there for me
Oh, I'm shrinking inside
When I go to bed at night

Chorus
When I'm spinning around
It's just my personal feeling
You know 'bout the things that
People often say about you
You know when I'm angry with you

Chorus

If there's a world without you
I don't wanna be
I don't wanna turn the wheel
I don't wanna turn the wheel without you
No, without you
Just feeling
It's just my feeling
Why don't you realize
Why don't you take a of me
