

Amoric "Fire"

My bare feet
They burn too deep
They hurt a bit
But this is only what you see
My flying hands
Reach for the one that never lands
They touch the sky
You never thought they'd get so high

Fire, release your pain
Why don't you step into the fire?
Forget the rain

My bits of flame
Will never ever be the same
They turn to smoke
Their ashes will become your cloak
Your flying hands
Will reach the one that never lands
They'll grab the sky
You won't believe they got so high

Fire, release your pain
Why don't you step into the fire?
Forget the rain
