When I try to reach a star, you say it's too far
When I try to fly a cloud, you blow it out
When I start to sing a song, you say it is wrong
You paint all my days in gray and think it's ok

I know what's on your mind
You think I am too blind
To see what's up around
And step down on the ground

When I try to do things on my own
You doubt I'm that strong
When I say it isn't fair
You don't seem to care
When I try to do it right
You put up a fight
What's it that you want from me
I'm all I wanna be

I know what's on your mind
You think I am too blind
To see what's up around
And step down on the ground

It isn't fair [x2]

I know what's on your mind
You think I am too blind
To see what's up around
And step down on the ground

What's it that you want from me
I'm all I wanna be
