How long before you conceive it?  
How long before you believe it?  
I have the greatest of pleasures  
You have the latest of measures  
Of what you have

So forget what you've known of time and dimension  
And let go of the different kinds of detention

Let go [x2]  
Oh oh oh  
Let go [x2]  
Oh oh oh  
Let go [x2]  
Oh oh oh  
Leave all of your worries behind

How come you don't like where you've been  
How come you don't like what you've seen?  
How come  
That's what I was without meaning  
That's where I was, I was leaning, but I didn't fall

Though it's not a thing I can prove  
I can tell you  
The direction in which to move  
Is to learn to

Let go [x2]  
Oh oh oh  
Let go [x2]  
Oh oh oh  
Let go [x2]  
Oh oh oh  
Leave all of your worries behind

Eoh, sha la la la la la [x4]
