Visit "[Save Yourself](#)" on [MotoLyrics.com](#)

I have been watching you
Watching all the amounts of water
That's flown through you while I was your daughter

I have been watching us
Killing all we need to breathe
Leaving ourselves no time to grieve

I have been waiting for your blood to overflow and eat
The consequences of our greed

And I'll be waiting for it till the day that I receive
Word that it's time for me to leave

[Chorus:]
Praying for forgiveness
Is not enough to save yourself at all
Play just to win this time
And you will see your future take it's toll

[Bridge:]
Remember this
And you will get tomorrow what you miss
Today
I just wanna let you know
As I go
As I go

[Chorus:]
Praying for forgiveness
Is not enough to save yourself at all
Play just to win this time
And you will see your future take it's toll
